FLAME FORWARD! Award

For every graduation cohort, each faculty member nominates a learner they feel best exemplifies the values of Florence Nightingale.

The faculty directors then select a distinguished learner to receive the Flame Forward! Award. This award goes to the learner or learners who, throughout their tenure at Nightingale College, embodied the College's EVOLVITUDE statement.

Community Fellow Award

The Community Fellow award is a prestigious honor bestowed on learners who actively contribute to the community through volunteer service in the realm of charitable health care and/or humanitarian aid service.

Learners must complete a minimum of twelve volunteer hours per semester of charitable service in their field to qualify for this award.

Academic Regalia

Academic regalia has a long and literally colorful history. The clothing worn by graduates, rich with symbolism, uses elements of the graduate's uniform to represent the accomplishments of the graduating candidates and the school bestowing the honors.

The gowns worn by bachelor's and master's candidates originated with wool gowns worn in the United Kingdom during the medieval era, when most scholars were monks. These probably were created to help keep monks warm in the winter. For many years afterward, robes were worn by academics not just ceremonially, but also during classes. Oxford and Cambridge established strict dress codes for their students during the reign of Henry VIII.

In the United States, formal academic wear began with the first colonial colleges, starting with Harvard College and King's College in the 17th century. As the trend became popular, some colleges called for standardization to alleviate confusion about appropriate academic wear. During the late 19th century, a Williams College graduate named Gardner Cotrell Leonard designed and created gowns for his graduating class. These were so successful that Mr. Leonard was invited to work with an Intercollegiate Commission made up of representatives from several prominent colleges to establish a standard for academic apparel.

The commission met in 1895 at Columbia University (formerly King's College) and established the Intercollegiate Code of Academic Costume. The code standardized the cut and material of graduation gowns and selected eight colors to represent various fields of learning. Most of the original standards are still in effect today.

Gowns for bachelor's, master's and doctoral degrees use similar basic designs with different sleeve shapes to indicate the degree being received. For example, a master's gown has an oblong sleeve shape with an arc cut on the front part of the sleeve. Doctoral candidates' gowns display three velvet bands on each sleeve in the color that represents the field of study.

For the master's and doctoral degrees, the interior of the satin- or silk-lined hood carries the colors of the degree-granting institution. The outer edge of the hood is lined in velvet with the colors that represent the graduating candidate's field of study. Nursing, for example, is represented by the color of apricot.

For bachelor's degrees, the mortarboard cap's tradition is like that of the gown, probably originating around the 15th century. The tassel usually shows the same colors as the hoods to represent the candidate's field of study.

The gown and hood or cap symbolize your achievements at Nightingale College, your membership in the nursing education profession, and a proud academic tradition that goes back hundreds of years. Your academic attire may be a costume on the outside, but the knowledge and leadership skills you've gained on the inside are not only yours to keep, they are yours to share with hundreds of nurses, patients, families, and others who will benefit not only from what you've learned, but from who you've become. Wear your regalia proudly as you join the nursing education profession and share who you are with the world.
