General Education Dashboard	2024-3 7 out of 8 GE programmatic objectives met the 70% benchmark. Quantitative reasoning was the only objective to fall below the benchmark, finishing at 60.88% up 2.28% from last semester (58.6%) and up 3.2% YoY. 7/8 Objectives are up YoY with only Human Ideal and Ethics being down -1.7% YoY. Need to ck on data																																																																																																															
Tactical Code	Implemented a thorough review process for curriculum, data points, and measurement items.																																																																																																															
NWCCU Standard	NWCCU Standard Description																																																																																																															
1.C.6	Consistent with its mission, the institution establishes and assesses, across all associate and bachelor level programs or within a General Education curriculum, institutional learning outcomes and/or core competencies. Examples of such learning outcomes and competencies include, but are not limited to, effective communication skills, global awareness, cultural sensitivity, scientific and quantitative reasoning, critical analysis and logical thinking, problem solving, and/or information literacy.

Nursing Education Outcomes	<p>The data for the NE-POs comes from a combination of HESI and Canvas. Canvas (assignments) is performing a little higher, and HESI scores are a little lower, so the hypothesis is that the HESI is what is dragging it down the Communication and Informatics score. Data for the graduate programs differs slightly as curriculum and delivery methods are different. Next steps include investigating if the graduate program model is translatable and possibly incorporate elements into the undergraduate programs. Some additional meetings between Nursing Education, Curriculum, and the Data team will also be necessary. The Data team also plans to do a deeper dive into how HESI scores are incorporated into the NE-POs.</p> <p>2024-1: The semester saw a drop in Organizational, Local, & Global Leadership, falling behind benchmark, along with Communication & Informatics, which has been barely below for a few semesters. This data should be taken as preliminary. Analytics has been re-engineering the method by which the raw data is extracted for these outcomes and final adjustments are still being made on pull methods. The 2024-1 outcome scores are still subject to change and will be updated on the dashboard once finalized, inasmuch, we may see the two delinquent outcomes raise above benchmark.</p> <p>2024-2: All categories are performing above benchmark. The data appears to be representative only of the Canvas assignments. The Communication and Informatics assessment in BSN 235 that was used resulted in many learners with lower grades due to plagiarism. This assessment will be updated for 2025-1 and we hope to see an improvement. Additionally noted 5 % drops in client center care (BSN 325 Hallmark) this competency is not even measured for this Hallmark in the rubric. Organizational, local, & global leadership which is tied to a course (BSN 335) that was redeveloped this semester. Action: It would be further beneficial to include metrics of measurement from skill-based and clinical assessments.</p> <p>2024-3: 6 out of 8 of the NE Program Outcomes met the benchmark. 2 of the POs that fell below the benchmark of 70% were Communication and Informatics at 67.1%, this is an increase from the previous semester of 65.6%. For this outcome, we saw a large increase in the HESI scores from 781 to 847, and a small increase in the Canvas score from 0.86 to 0.87. The organizational, local, and global outcomes decreased from 70.6 to 67.4 %. Upon further evaluation, the HESI score average in this category increased from 877 to 878, however, the Canvas score decreased from 0.92 to 0.90. This assignment in BSN 335 used to measure this outcome is one that is new and redeveloped from Summer. We will continue to provide resources to learners to improve in this assignment.</p>
Tactical Code	Tactic
	Faculty development is a primary focus to ensure faculty are facilitating the curriculum in the most effective intended ways possible. Continual curriculum review and enhancements continue to develop positive learner outcomes.

DFC Learner Evaluation	<p>The Practice metric is derived from the DFC Learner Evaluation survey which is distributed at the conclusion of a learner’s DFC work. Items related to their experience with clinical practice are averaged to determine practice-readiness.</p> <p>2024-1: Scores saw an increase from Fall 2023 to Spring 2024. Set the initial learner survey benchmark to 4.6.</p> <p>2024-2: We are meeting or exceeding benchmark in all areas. Continuing work to further improve the learner experience in DFC. The efforts include a pre-DFC teams chat to improve communication, a day 1 outline of expectations, and a communication sheet for the unit to help understand the level of each learner.</p> <p>2024-3: All results remain above the benchmark of 4.6. We are continuing to refine the DFC experience and have received positive responses from learners.</p>

Learner Demographics Dashboard	<p>Learner demographics continue to reach an equilibrium with most categories staying the same or following a trajectory similar to the past year. Some notable differences in the last year include the slight increase in younger learners, ages 18-24. Also, a marked increase in the number of Hispanic/Latino Learners enrolled. We see the closing of “Not Specified” as a category due to the formatting of the data gathering at the time of admission.</p> <p>2024-3: Learner geography is notable growth in Pacific northwest, as well as eastern states. The map indicates a missing value, which is a learner with a designation of AE, or an address belonging to a member of the armed forces and which does not populate the map.</p>

LSI – Learner Satisfaction Survey Dashboard	<p>The index is calculated using the following logic:</p> <ul style="list-style-type: none"> Satisfaction – Q6.1 on Learner Experience Survey Loyalty – Retention rate/20 Perceived Value 1 – $2.5 * \text{LOG}(5 * x)$ where $x = 100 * (\text{number of starts from referrals} / \text{total number of new starts})$. Perceived Value 2 – Q7 on LES. Expectation – Q4.5 on End of Course Survey + Learner Experience Survey Quality of Course Materials – Q4.4 on EoCS+LES Quality of Faculty – Q5.4 on EoCS+LES <p>As learner satisfaction has been trending near goal over the past couple of semesters, increased efforts have been put in place to improve systems, processes, and expressed pain-points for</p>																																																																																																																																																

	<p>learners. Ongoing issues relating to the COVID-19 pandemic resulted in a dip of the learner satisfaction score for most of 2020. Coordination of efforts across the functions, enhanced support services, and increased communication have promoted the support of learners through the challenging current environment. Academic Faculty Managers were created to expand the time and administrative support potential in coordination with other support structures, such as Learner Support Services (LSS) Counselors. Communicating the processes and increasing the transparency of these processes with learners are providing increased pathways to resolving concerns, answering questions, and communicating needs. Further, new College Navigator roles were created within the college to provide immediate support and handholding resolution of issues and concerns across multiple functions. This will increase the immediate contact and communication metrics with learners to ensure they feel engaged and supported with issues arise. In an effort to support learners in understanding the expectations and adhering to the required elements of their programs, increased communication, follow up, and documentation are implemented with a new role for coordinating learner communication, and establishing feedback loops and coordinated support with cross functional management.</p> <p>With the combined opening of some in person experiential learning and the development of VCBC's, coupled with these systemic and organizational enhancements, learner satisfaction has successfully rebounded from the 2020 dip. The new, more robust, Learner Satisfaction model began implementation in Spring 2021 and has been used to recalculate scores for the 2020 calendar year. This model should be less affected by extraneous circumstances in addition to being a more holistic measurement.</p> <p>Throughout the 2020/2021 academic year efforts were put into rebuilding the Learner Support Services function to better support learners in a fully virtual experience. Several webinars were redeveloped to create a more robust support structure. Beginning in 2021/2022, a Learner Success Series was developed to provide resiliency and personal development opportunities in addition to the formal training delivered. The series is built around Dr. Peggy Swarbrick's Eight Dimensions of Wellness and is delivered to all new learners during their first semester. The Learner Support Counselors host weekly meetings for learners to discuss topics delivered asynchronously through Canvas.</p> <p>2024-1: Most categories saw somewhat of a downturn; although the lowest categories continue to trend upward. New ability to analyze the most recent survey results (as well as historical) is available in the latest survey dashboard, featuring sentiment analysis and AI generated narrative on trends.</p> <p>2024-2: The latest semester of the LSI saw a marked correction of the downward trends from the semester before. Categories falling below benchmark are Satisfaction and Perceived Value based on end of course survey feedback. The quality of faculty and course materials both had an increase in value.</p> <p>2024-3: Fall semester of 2024 saw two measures slightly below benchmark: Perceived Value 2 at 3.99 and Satisfaction at 3.93. These are both derived from survey responses collected at the end of the course. The composite score continues strong at 4.3.</p>
Tactical Code	Tactic
1.C.5	The institution engages in an effective system of assessment to evaluate the quality of learning in its programs. The institution recognizes the central role of faculty to establish curricula, assess student learning, and improve instructional programs.

Retention Rates	Retention rates remain above benchmark for all programs. As of 9/16/24, the all-program retention rate is at 91% for Summer 2024. Retention rates are 91% for the BSN program, 83% for the LPN-ASN program, and 80% for the PN program. While Summer 2024 retention rates were lower than previous semesters, the College needed to withdraw many learners for excessive unpaid financial balances. Without these financial balance withdrawals, Summer 2024 retention rates would have been 92.4%. This ranks among the highest retention rates for the College in recent history.																								
NWCCU Standard	NWCCU Standard Description																								
1.D.2	Consistent with its mission and in the context of and in comparison with regional and national peer institutions, the institution establishes and shares widely a set of indicators for student achievement including, but not limited to, persistence, completion, retention, and postgraduation success. Such indicators of student achievement should be disaggregated by race, ethnicity, age, gender, socioeconomic status, first generation college student, and any other institutionally meaningful categories that may help promote student																								

	achievement and close barriers to academic excellence and success (equity gaps).

	Using NURSYS and state boards of nursing, the NCLEX Coordinator will track progression of prior year’s graduating classes and provide feedback to NCLEX coaches to provide additional support. Learners will be made aware of resources available through NCLEX coaches throughout their tenure, with emphasis brought just prior to completion.																												
NWCCU Standard	NWCCU Standard Description																												
1.C.1	The institution offers programs with appropriate content and rigor that are consistent with its mission, culminates in achievement of clearly identified student learning outcomes that lead to collegiate-level degrees, certificates, or credentials and includes designators consistent with program content in recognized fields of study.
