Description:	This course focuses on the role of the professional nurse in promoting optimal health for individual clients. The course will discuss basic psychomotor nursing skills and introduce learners to medical/ surgical nursing for low-risk clients. This course also provides the learner with techniques for carrying out a physical, psychosocial, spiritual, and cultural assessment to evaluate clients' well-being. The course also introduces learners to assessment devices and procedures to collect data. The course focuses on health promotion, health protection, disease prevention and communication strategies throughout the lifespan.
