

BSN 325 : Population-Based Chronic Illness and Health Promotion

Delivery Modality: Blended

Semester Credits: 4

Contact Hours: 75

Outside Preparation: An average of three (3) hours per week for every didactic credit hour (This course includes a practice-based direct focused client care experiential learning project which requires twenty-two point five (22.5) tracked clock hours to receive credit for the course).

Typically Offered:

Prerequisites: Minimum eight (8) semester credits in human anatomy and human physiology, and three (3) semester credits in college-level English, and three (3) semester credits in College Algebra or equivalent; and BSN 246.

Corequisites: None

Requisites: MAT 220, PSY 201, SCI 131, and SCI 225

Description: This course introduces concepts of community health nursing using a population-focused nursing process. The course emphasizes health promotion, risk reduction, and disease management in selected community settings. The course focuses on theory-based nursing care of aggregates, communities, and vulnerable populations in a global, multicultural society. The course introduces learners to public health concepts as well as characteristics of community health nursing. The course also emphasizes community assessment process and the development of nursing strategies to assist multi-problem families, while considering health on a continuum and throughout the lifespan. In addition, the course will explore the nurse's role on the community health team and give an understanding of healthcare needs of different cultural groups. Note: Though not classified as "direct focused client care experiential learning" contact hours in the curriculum plan, the RN-to-BSN Track requires twenty-two point five (22.5) tracked practice-based direct focused client care experiential learning project hours to earn the academic credit for BSN 325.
