Description: This course introduces civilization from pre-history to the early modern era. Western Civilization refers to the civilization that began in the ancient Near East and then developed primarily in Europe, northern Africa, and the westernmost edges of Asia. Learners will concentrate on several major themes: the rise and fall of the ancient and classical civilizations that were forerunners to the rise of the West, the cultural legacy of these civilizations, the changing role of religion in society and changes in religion itself, and the development of political institutions. Topics include ancient Greece, Rome, and Christian institutions of the Middle Ages and the emergence of national monarchies in western Europe.
