Semester Credits:	3 (Didactic Only)
Contact Hours:	45 (Online Didactic)
Outside Preparation:	An average of three (3) hours per week for every didactic credit hour None
Typically Offered:	Fall
Prerequisites:	None
Corequisites:	None
Requisites:	None

Description: This course emphasizes the transfer of knowledge to clinical practice as graduate learners apply teaching-learning theory and assessment techniques to the healthcare of clients of all ages and the education of professional caregivers. Analysis and synthesis of assessment findings are related to relevant client history, cultural and psychosocial client characteristics, normal anatomy and physiology, and normal growth and development.
