

LEARNER FUNDING INFORMATION

LEARNER FUNDING OVERVIEW

Learner Funding Advisors (LFAs) will work with prospective learners individually to explore options to pay the cost of their education. Learners should make all financial arrangements prior to the first day of every semester and must meet all financial requirements at the time of graduation for release of transcripts, diploma, and participation in the commencement ceremony.

Learners and their families are responsible for planning and paying for college. Learner Funding includes resources such as scholarships, prepaid college savings plans, personal savings, personal income, and institutional, state, and Federal Student Aid (FSA).
