

GENERAL INFORMATION

LEARNER ATTIRE

All prelicensure learners must obtain a minimum of four (4) sets of College-authorized uniforms before the first experiential learning session. The College-authorized uniform must be worn in all experiential learning settings, including intervention skills recordings and must be neatly laundered and ironed. Untidy clothing will not be permitted at any time. Excessive jewelry and clothing that is provocative or contains obscene messages or images are not permitted.

Note: Several healthcare agencies at which the College offers experiential learning require a specific uniform while enrolled in certain courses.
