

LEARNER SUPPORT SERVICES (LSS)

HEALTH SERVICES/INSURANCE

Health services are not available at the College. Learners are encouraged to carry personal health insurance as health insurance is necessary to be credentialed for experiential learning. Learners may refer to the [Nursing Education Services- Health Insurance](#) section of this Catalog.

Learners who cannot meet this requirement may not be allowed to attend some direct focused client care experiential learning sessions, which may impede progress in a prelicensure academic program. Learners are covered under the College's liability insurance policy while at a SOFE site.
